CREATING A GREENER WORLD

EQ MICRO FLEX
A NEW-GEN NEON SOLUTION

The EQ Micro Flex simplifies the process of creating neon signs, making it more user-friendly and cost-effective than ever. This innovative product consists of two main components: the EQ Micro LED tape, which boasts a solderless design for ease of use, and separate flex covers available in a variety of colors to suit your style. Additionally, the essential bits for routing are included as accessories, ensuring you have everything you need. With the EQ Micro Flex, manufacturing a neon sign becomes an effortless and highly affordable endeavor.
